## **Impsley Park - private**

When the sun breaks through in Impsley Park  
There's a man in his room who stays in the dark  
And nothing can bring him away  
And nothing can bring him away  
From thinking of then  
Had he seen her again  
Had he seen her again  
Can you see me (no)  
Can you hear me (oh no)  
Had he seen her again

Alles ist schwarz Ing, mit mir

When the sun went down in Impsley Park  
She was hiding there alone in the dark  
'till someone would take her away  
'till someone would take her away  
And call out her name  
But nobody came  
But nobody came  
Can you see me (no)  
Can you hear me (oh no)  
But nobody came

To take her away(can you see me Impsley Park)  
To take her away(can you hear me Impsley Park)  
To take her away(can you feel me Impsley Park)
