## **Mombala way** (and I'm happy)

Come come my dear  
There's nothing to lose or be feared  
'cause life is easy on Mombala way

The sun shines down  
Lovers are lost and they are found  
And life is easy on Mombala way

So come and see  
The people they smile 'cause they are free  
And life is easy on Mombala way

The birds they sing  
Although they are chained and in rings  
'cause life is easy on Mombala way

The car is on the road, the shoes are on the floor  
And I got the feeling, I've been here before  
The man in the shop said how do you do  
I've got some money would you like some too?  
And we can have a party with ice-cream and cake  
Laugh and joke at the games that we make  
Pin-tail-on-donkey and blindman's bluff  
And British Bulldog when the going gets rough  
But all that I could say and all I could do  
Was to go „I'll remember you“  
Remember you, I'll remember you

**Mombala way** (and I'm happy) continued

I know, there's nothing to do now  
But I'd like to go somehow (and be happy)  
To Mombala way

All those I know now, are so far away now  
No one left anyhow (so be happy)

Oh I can see how  
It's gonna have to be now  
I'll carry on somehow and I'm happy

Mombala way
