## **Requiem for me**

### **My Angel**

No one knows about my little angel  
No one knows except me  
No one sees she's an angel  
No one cares except me  
'bout my angel, except me

### **Black Dog Days**

Down, oh I'm so down now  
Just being a clown  
Just hanging around now  
Will someone to talk to me  
And say wow! So down below now  
So lower me down, I'll be alone now  
With no one to question me  
Well how's it going down below  
Down in the ground hound  
With no-one around now  
With none of my cares now  
So don't you talk to me  
Of all the wonders to be seen  
'cause I know, leave me alone  
Alone in the ground now  
So down below

### **Saying Goodbye**

The day has come, yo  
Darkness is shading my door  
Au revoir mon p'tit chaton  
Mon grand lion, mon grand amour  
Au revoir mon ami, mon amour

## **Requiem for me** continued

### **One Last Thing**

I know what you know, do you know?  
You know nothing at all, nothing to know  
There's really nothing to know  
So let go, let's go know  
Go down below, the time is near now  
Get ready to let go  
Time to let go

### **Edge of Treason**

The day has come  
That I won't see him again  
Just lay me down, just lay me down

There he was, like he'd never been away  
Walking hand in hand, free we ran  
Well I know, the edge of treason

The band they played, all the songs they ever knew  
Loving life re-born, danced 'till dawn  
Well I know, the edge of treason

The sun it shined, lighting up that gloomy day  
Morning came along, saw no wrong  
Well I know, the edge of treason

The day has come  
That I won't see him again  
Just lay me down, just lay me down
